

Eco-Home Services Website Assessment

Current Site Strength and Gaps

The site has a clear quote form, visible contact info, and a clean, simple layout but right now it is bare bones and lacks trust elements, detailed services, and conversion triggers.

High Impact Improvements

Conversion-focused layout (ideal structure)

Here's the ideal flow for your page:

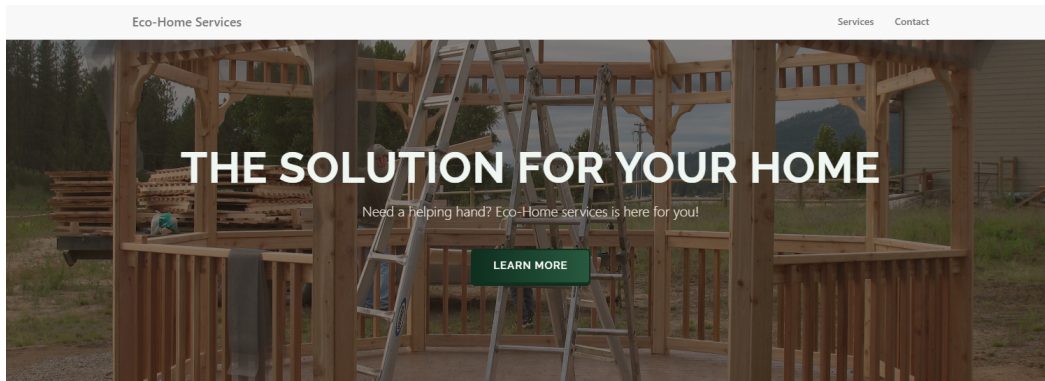

- Headline + value proposition
- Call-to-action button
- Services list
- Why choose us
- Service Areas
- Quote form
- Contact info

Navigation Menu Items:

- Who We Are
- Pricing
- Gallery
- Testimonials and/or Success Stories
- Contact Us
- Exclusive Offers (Optional)

Hero image importance

Use a top image that drives conversions, such as a real work photo of a technician, a before/after split image, or a lifestyle shot with a happy homeowner. Include your logo and a clear headline with a value proposition.

Strong Headline, Value Proposition, and a Call to Action

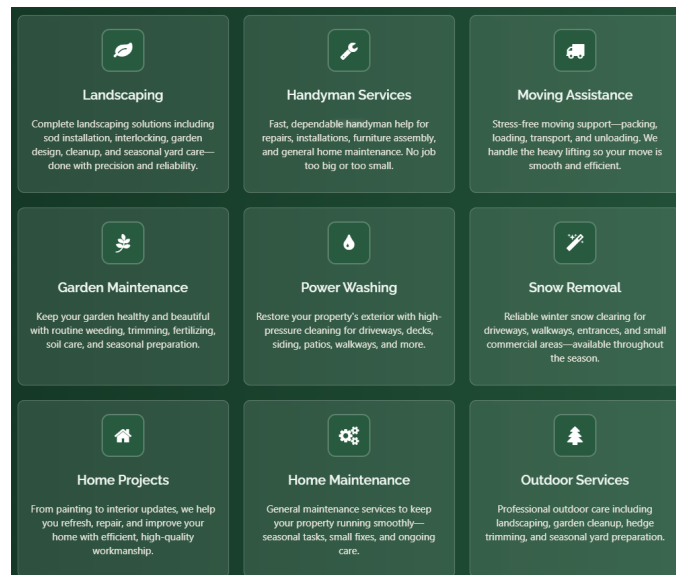

Pair the hero image with a clear H1 heading with keywords like *"Handyman Services in Ottawa & Barrhaven"*, *"Reliable Handyman Services in Ottawa – Fast, Affordable, Trusted"* or *"Reliable Handyman Services in Ottawa,"*

Add a value proposition emphasizing fast, affordable, eco-friendly repairs like *"Delivering reliable, affordable, and professional handyman solutions, locally owned and operated with guaranteed workmanship. Serving Barrhaven, Manotick, and Riverside South with a commitment to excellence and customer satisfaction."*

Remove "LEARN MORE" Replace with a call to action like *"Get a Free Quote"*

Consolidate and Add Services

Keep icon-supported services section but consolidate and clarify services and improve SEO.

Other Improvements

Add “Who We Are” section

Helps establish credibility, build trust, and humanize the organization or brand. It provides context, outlines your mission or values, and introduces the team, history, or purpose behind the effort. This section enables visitors or readers to connect on a personal level and understand why the organization exists and what differentiates it from competitors. For example: *(customize and add as many details as possible reflecting the team’s experience and outstanding backgrounds and experience)*

“At Eco-Home Services, we’re a locally based team dedicated to making home ownership easier, more efficient, and stress-free. We provide reliable, hands-on support for everyday home needs—whether it’s moving, repairs, maintenance, or property preparation.

We started with a simple goal: to offer dependable, affordable, and flexible help that homeowners, renters, and property owners can trust. Too often, small jobs get overlooked or delayed because they don’t fit into traditional services. That’s where we come in.

Our team brings a practical, problem-solving approach to every project—showing up on time, working efficiently, and leaving your space better than we found it. From quick fixes to larger projects, we focus on delivering quality work without unnecessary hassle.

Add Service Areas section (CRITICAL FOR LOCAL SEO)
